RESTRICTIONS

The following restrictions apply to each lot in Brad-Mer Acres Phase II unless specifically modified in the deed of conveyance of the specific parcel.

INTRODUCTION, DEFINITION & CONCEPT

Brad-Mer Acres Phase II Allotment consisting 9 lots on the South and West side of Bradford Drive, is a planned allotment where one may live, work and play after investing in one's dream home on acres of land protected by restrictions. Features, particularly in architecture and landscape, both natural and man-made, have been selectively woven into the Brad-Mer Acres Phase II infrastructure and serve to unite the community pride of its inhabitants. The primary purpose of these restrictions is to better assure that builders of single-family residential units will conform and adhere to the same high standards of design excellence. The restrictions seek to establish a design framework which the individual builder will use as guidelines for site improvement, with latitude and flexibility (on one hand) balanced against preserving the value, consistency and integrity of Brad-Mer Acres Phase II (on the other hand). The Master Design Guidelines will hopefully, serve to guide, inform, aid and inspire to the same extent as they may prohibit, restrict, and require. While some features are mandated, the review committee may make discretionary judgements to reduce or waive any requirements when it can be demonstrated that appropriate mitigating measures have been taken and that the overall spirit and intent will be preserved. However, such discretionary approval(s) shall not represent or constitute a bonding precedent since no two or more tracts or circumstances are likely to be the same.

RESTRICTIONS

- No more than one single family dwelling house and attached garage shall be erected on said premises.
- Said premises or any building erected thereon shall not at any time be used for the purpose of any trade, business or manufacture.
- No intoxicating liquors shall be manufactured for sale, kept for sale, or sold on said premises.
- No structure of a temporary character, camper, mobile home, trailer, basement, tent, shack, garage or other outbuilding shall be used on any lot at any time either temporarily or permanently for dwelling or storage purposes, nor shall campers, mobile homes or trailers be stored on said premises.
- No animals, livestock, poultry of any kind shall be raised, bred or kept on any lot, except that dogs, cats and other household pets may be kept provided that they are not kept, bred, or maintained for any commercial purpose.
- No noxious or offensive activity shall be carried on upon said premises, nor shall anything be done thereon which may become annoyance or nuisance to the adjoining property.
- No soil or trees shall be removed from said premises for any commercial use. Cutting of trees shall be limited to the extent necessary for the clearing the foundation site for construction and landscaping.
- No fires shall be permitted on the premises except for heating and cooking. Use of firearms on the premises is prohibited. The premises shall be kept clean and free of trash, garbage and debris at all times. Advertising signs, other than for sale of said premises, are prohibited.
- Any structure shall be of brick, wood, or stone construction except that concrete block may be used for foundations, basement walls and fireplaces or in any other places where the same will not be exposed to view from outside.
- Unimproved premises shall be mowed at least twice each summer. All weeds on improved premises shall be kept mowed.
- The racing of motor vehicles such as mini-bikes, motorcycles, all terrain vehicles is prohibited on the roadways of the Allotment.
- There shall be no hunting with firearms or a bow and arrow, or trapping allowed on said premises.
- No fence shall be built on said premises more than six foot in height, and shall be of an ornamental nature and open construction.
- The exterior construction of structures erected on the premises shall be completed within 24 months from the time construction has commenced.
- No non-operable, wrecked or junked vehicles shall be kept on said premises for a period in excess of 14 days.
- The following restrictions shall apply relative to the construction of any building, structures, fence, wall or improvement of any kind or nature to be erected or placed on said premises.

A. All plans and specifications shall be submitted in writing to Brad-Mer Acres for consideration and approval and disapproval. Factors to be considered by Brad-Mer Acres as follows:

- Quality of workmanship and materials, adequacy of site dimensions, adequacy of structure design, proper facing of main elevation with respect to the street;
- Position and location of structure on the premises;
- Conformity and harmony of the external design, color, type and appearance of exterior surface and landscaping;
- Adequate surface and soil drainage;
- The observance of and compliance with set back lines and easement areas and the enhancement of aesthetic views and visual corridors to and from the common property.

B. The procedure for the foregoing consideration shall be as follows:

1. Brad-Mer Acres consists of Bradford Phares and Pamela Phares who shall constitute the Review Committee. Said Committee may be further supplemented by persons selected by said Bradford Phares and Pamela Phares to act for them or with them on the review process.

GENERAL NOTES

- ALL LOTS DEPICTED HEREON ARE TO BE USED FOR RESIDENTIAL PURPOSES ONLY.
- Building Setback Lines:
 35.0' Front Minimum From Road R/W Line,
 12.0' Rear Yard Minimum,
 10.0' Side Yard Minimum.
- Utility Easement Reservations:
 10.0' Around Perimeter of Sub'd.
 10.0' Either Side of all Common Lot Lines.
- Driveway Culverts to be installed by the Developer/Owner at the Time of Construction as Follows:
 12" MINIMUM DIAMETER
 30' MINIMUM LENGTH
- Driveway Culverts will be installed in Accordance with Sound Construction Procedures and are subject to the Approval of the Hocking County Engineer's Office.
- Individual Sewage Disposal Facilities and Their Locations, as well as the Location of Private Water Wells, MUST Be Approved By, as well as COMPLY With, Hocking Co. Health Department Regulations.
- The Developer Will Ensure that Electrical Service Will Be Provided in the Subdivision.
- 10.0 ft. Wide Drainage Easements are Reserved on Lots No. 8, 9, 11, & 14, Being 5.0 ft. on Either Side of the Centerline Shown on Plat.
- A 12.0 ft. Wide Utility Easement (5.0 ft. on Either Side of the Centerline Shown on the Plat) is Reserved Across Lots No. 1 through No. 7, Inclusive, to Accommodate Existing Underground Utilities.
- Water bars should be installed on all roadways on sloped hillsides.
- Vegative cover should be left on site to disturb rain drop impact on bare, disturbed soils. Trees to be left on site should be clearly marked to avoid damage from equipment during the site preparation material delivery, and any and all phases of development. The root zone (which extends to just below the crown of the trees), should be flagged off or otherwise marked to keep the roots safe from excessive traffic or digging.
- Stockpile topsoil in separate piles from subsoil for later use to reestablish vegative cover after final construction. Place sediment barriers around the topsoil to avoid loss to erosion during construction time.
- Temporarily seed and mulch any denuded areas within 7 days of disturbance if the site is to remain dormant for longer than forty-five days.
- Maintain sediment control practices until completion of the construction phase.
- The area of this subdivision is unzoned.
- No lot shall be graded to create any new slope greater than 1 in 5.

The 0.34 Ac. Reserve Strip between Lots #22 and #23 is not to be used as separate building site or transferred as an independant parcel in the future without Planning Commission and/or Health Department approval.
